

Penguin Micro *for ParkZone BNF Gear*

Starting at **\$19.95**

****American Made****

Specifications:

- **“Bind-N-Fly”** micro gear compatible
- **Wing Span:** 12 in. **Length:** 13.9 in.
- **Wing Area:** 85.9 sq in
- **Flying Weight:** 30 grams
- **Wing Loading:** 1.77 oz/sq ft
- **Motor:** E-flite 4-Site, ParkZone P-51 or Sukhoi, 5-gram brushless outrunner
- **Receiver:** AR6400 or AR6400L Brick
- **Servo:** Single 1.5g or 1.7g + Brick
- **ESC:** Built-in (brushed motors), XP-3A (brushless motors)
- **Battery:** 130-1S to 240-1S Lipo

Kit Features:

- Ultra light, strength-engineered design.
- CNC cut from 3mm Depron-Aero (Gediplac).
- Laser-cut ply control horns.
- All control surfaces bevel-cut & prehinged.
- Custom air-brushed graphics.
- Carbon fiber reinforcements & control rod.
- Brushed & brushless power options

Aerobatic 3D Micro Monoplane

Penguin Micro is incredibly aerobatic while remaining stable and maneuverable. Capable of hovering and other 3D maneuvers in a small area. Extremely slow-flight capable while remaining ultra-stable. Check out the video on our website!

What Else Do I Need?

Sub-micro Radio Gear & Motor

from your E-flite 4-Site or ParkZone P-51 or Sukhoi. Just getting started in micros? We sell micro flight gear and accessories to suit your needs.

Power Options

Penguin Micro flies extremely well on either brushed or brushless power. The 4-Site motor in a P-51 gearbox is the optimal brushed setup, and the AP05-3000Kv outrunner with XP-3A ESC provides excellent brushless power.

LiPoly Battery & Charger

Hyperion 25C lipos are highly recommended. We have used 130-1S, 160-1S, and 240-1S with great results. Ask us about charger options.

The *Penguin Micro*® ARF is manufactured and sold exclusively by
